USE THESE INSTRUCTIONS AND THE DIAGRAMS BELOW TO HELP YOU COMPLETE THE ADAPT-A-DOOR ORDER FORM.

INSTRUCTIONS

MEASUREMENTS:

W - The thickness of the Wall.

F - The height of the Floor *(Only required with a Raised Sill [The height you step up])*

HIC - The height in clear *(smallest opening of the door frame)*

WIC - The width in clear *(smallest opening of the door frame)*

APPLICATION: Is the box a cooler or a freezer?

Wash Down Feature: To protect any electrical components in the event the door gets saturated.

Will this door be subject to wash-down? *(Will this be saturated?)*

SWING: Facing the door what side of the door are the hinges on?

JAMB TYPE: "A" or "B"

SILL CONDITION: Flush *(walk through)* or Raised *(step up)*

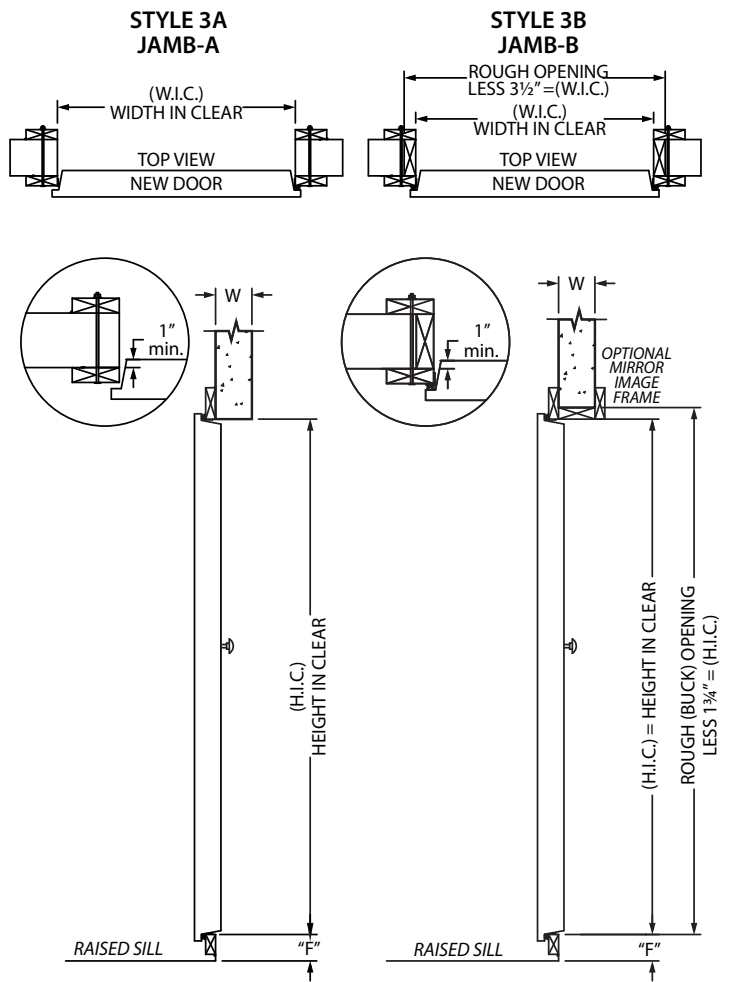

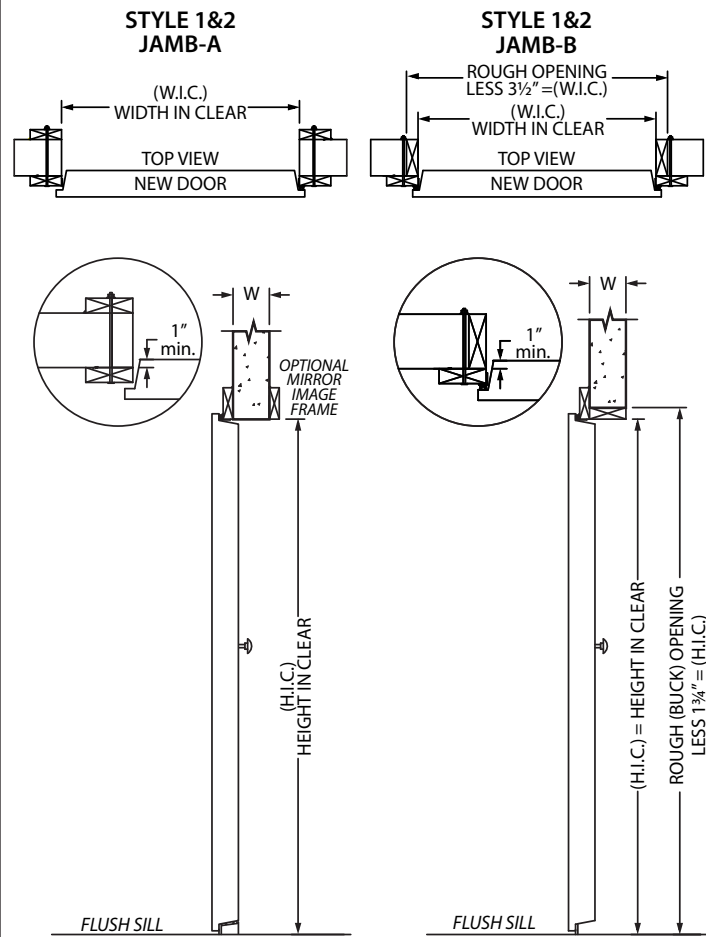

FINISH: What type of finish do you want the door made in?

OPTIONS: You may select any or all of them.

- Locking Bar
- Mirror Image Frame *(frame on the inside to match the frame on the outside)*
- "C" capping is trim that finishes the door frame from outside to inside.
- Observation Window
- Pressure Relief Port
- Diamond Tread Kick Plate *(interior, exterior or both).*
